Office, 15800**

Flight Path Dr.

Brooksville.

Have you ever wanted to fly an airplane? Do you have any idea what allows an airplane to fly? Or maybe you're curious about how airplanes are constructed? Did you ever dream about being a pilot?

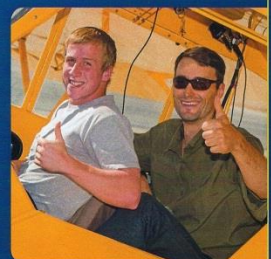

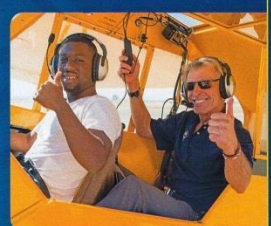

If you're nodding your head "Yes" and are between the ages of 10 and 17, you're ready to take a free Young Eagles® flight and see what real pilots do on the ground and in the air.

Since 1992, more than 1.9 million Young Eagles® have enjoyed a flight from EAA's network of volunteer pilots. For many, it was the start of their journey to becoming a pilot, aircraft mechanic, air traffic controller, or many other career possibilities.

The Brooksville Regional Airport Chapter of the EAA will again host a Young Eagle's Flight opportunity on Saturday, March 3, 2018 from 10 am to 2 pm - weather permitting.

Your Young Eagles® flight will last approximately 20 minutes and you will see the earth and sky in a new and exciting way. This is your chance to experience the freedom of flight that many people only dream about. More details of the Program are available at Flight Experiences Menu of www.eaa.org

Advanced reservations are required and signature of parent or legal guardian is required to be on file. Registration will be offered in the Administration Office of the Brooksville Regional Airport on Saturday morning.
