

## EAA Chapter 1298 September 2024 Meeting Minutes

Phil Renard called the meeting to order at 9:00 AM. Meeting opened with pledge.

Guests: Ron Cantrell, Alan Gordon

Phil introduced a take off accident summary of a King Air 350 from TX to FL, where all 8 died. The root cause was the friction lock not being checked and the lack of using a checklist prior to take off as the left engine control vibrated loose as the left engine was losing power. Initially, left rudder input was used and then right, which was too late.

Frank Brunot reported on the financials which are also posted on the bulletin board.
